

Patient Record — Synthetic Prior Authorization Case

Dataset Type: Synthetic / fictional record for software prototyping and evaluation

Patient Information

Patient ID	SYN-PT-2010
Name	Vikram Singh (synthetic)
Date of Birth	1972-10-05
Age	53
Sex	Male

Referenced Policy

Policy ID	POL-011
Policy Name	Hip MRI Prior Authorization
Payer	Synthetic Health Plan C

Service Details

Service Requested	MRI Hip
CPT/HCPCS Code	73721
Diagnosis	Persistent hip pain
ICD-10 Code	M25.551
Ordering Provider	Dr. T. Verma
Provider Specialty	Orthopedics
Facility Name	Greenfield Diagnostics
Facility Type	Outpatient Diagnostic Center

Clinical Details

Severity	Moderate to Severe
Neurological / Clinical Symptoms	Persistent hip pain affecting walking and daily activity
Previous Treatment	Physical therapy and NSAIDs
Treatment Duration	9 weeks
Requested Quantity	1 study

Documentation Submitted

Documentation	Orthopedic consultation; examination; conservative treatment history; X-ray
---------------	---

Expected Policy Outcome

Outcome	APPROVE
---------	---------

Note: This is synthetic data created for a prior-authorization software prototype. The outcome is a dataset label for testing and is not a real insurance coverage determination.
